Miss Eula Jarnigan, one of the founders of the school, who has been accustomed to going away for her vacations, has taken up agriculture for her summer pursuit. Miss Jarnigan is a college graduate. She attended Cor-nell and the University of Chicago, besides having been abroad at two dif-ferent times to study French in France. Her motive in taking up farming is of a purely patriotic nature, and it is her intention to do the work at Mc-Callie school this summer that would fall to the lot of any rural woman.

She declares that she is not directing anything, but is simply going to do everything, from handling the gar-den hoe and rake to feeding and caring for the chickens, straining the milk and churning the butter.

JUNIOR LEAGUE JUST COULDN'T SELL PLATTER

Sacrifice Sale Brings \$2,300. Amount to Be Distributed Among Local Charities.

Sentiment, mingled with the practical, found very emphatic expression in the closing night of the sacrifice sale. An old English platter, more than a century old, had been presented to the Junior league for the sale, which had been esteemed as a valuable heirloom. been esteemed as a valuable helifoon.

Articles which were not sold Saturday night were supposed to be auctioned off, but when the members looked so affectionately upon the wonderful piece of china, in a handsome willow pattern, sentiment rebelled against the possibility of it falling into the p against the possibility of it falling into unappreciative hands, and each time it was about to be handed to the auctioneer it was again withheld. Coming of The Sunbeam

How to Avoid Those Pains and Distress Which so Many Mothers Have Suffered

Too much cannot be said for a wonderful preparation, familiar to many women as Mother's Friend, It is more effective in its action than

ful preparation, familiar to many women as Mother's Friend.

It is more effective in its action than all the health rules ever laid down for the guidance of expectant mothers. It is an external application that spreads its influence upon the cords, tendons and muscles of the abdomen, rendering them pilant, and they expand gracefully without that peculiar wrenching strain.

The occasion is, therefore, one of unbounded joyful anticipation, and too much stress cannot be laid upon the remarkable influence which a mother's happy prenatal disposition has upon the health and fortunes of the generations to come.

The pain at the crisis is infinitely less when Mother's Friend is used during the period of expectancy, for the muscles expand easier and with less strain when baby is born.

Mother's Friend is for external use only, is entirely safe and may be had of your druggist. It is prepared by the Bradfield Regulator Co., D-174 Lamar Bidg., Atlanta, Ga. Write them to mail you their interesting "Motherhood Book." They will send it at once, without charge, and you will find it very helpful. Do not neglect for a single night and morning to apply Mother's Friend according to directions around the bottle, and thus fortify yourself against pain and discomfort.—(Adv.)
